

ICS TRIPLEX T8461C Trusted CCoat TMR Module 24/48V 40Ch DO Mod

Our Product Introduction

Basic Information

- Place of Origin: MEXICO
- Brand Name: ICS TRIPLEX
- Certification: CO
- Model Number: T8461C
- Minimum Order Quantity: 1PC
- Packaging Details: BRAND NEW WITH FACTORY PACKAGE
- Delivery Time: 2-3 days
- Payment Terms: T/T
- Supply Ability: 100pcs per week

Product Specification

- PART NO.: T8461C
- Weight: 1.5 KG
- Actual PRICE: Negotiable
- Condition: New Original With Sealed
- Application: Oil And Gas Factory
- Color: Normal

Product Description

ICS TRIPLEX T8461C Trusted CCoat TMR Module 24/48V 40Ch DO Mod

Description

Rockwell ICS TRIPLEX T8461C Trusted CCoat TMR Module 24/48V 40Ch DO Mod

Product details

Model	T8461C
Part number	T8461C
Brand	ICS TRIPLEX
Description	PLC TMR Module
Datasheet/Catalogue	PDF File
Weight	1.5KG
Condition	Normal

Product Description

ICS Triplex released AADvance, a next-generation critical control solution, to the global market in 2008, following the introduction of Regent systems in 1986 and Trusred systems in 1998.

TRUSTED ICS is a system based on a triplex processor, in which all important circuits are redundant. TRUSTED ICS ensures that programs are executed correctly even in the state of internal failure. All modules in the system can be hot replaced online. This design allows TRUSTED ICS systems can remain almost 100% online.

TRUSTED ICS is used to deal with a variety of complex and dangerous production process control in real time, accept field signals, execute logic operations, PID and other control procedures, output control signals, drive the field execution unit.

TRUSTED ICS applications are programmed using IEC 1131 TOOLSET software.

AADvance is first and foremost a critical control system that takes into account decades of ICS Triplex TM2 technology and allows for multi-level safety control and unit control requirements. On the triplex bus architecture, the processor module and I/O module can be built arbitrarily from single, double and triple, so as to achieve multiple choices from fail-safety to fault tolerance, from small scale to large scale system count, from distributed to centralized structure, and from SIL1 to SIL3 security levels

Application

- 1.Power industry, the elevator industry, parking, automobile, auto ancillary.
- 2.feed industry, aluminum smelting machines, refrigeration industry.
- 3.steel industry, combustion control systems, non-ferrous metal smelting.
- 4.glass industry, construction machinery, textile machinery, water treatment

Mainly Products

PLC module	Redundancy Module
DCS module	Analog input module
CPU module	Analog output module

IO module	Digital input module
DO module	Digital output module
AI module	Relay Output Module
DI module	Relay Input Module
Power Module	Motion control module
Ethernet module	Network communication module

Best Services Assurance

- 1.High quality
- 2.Fast Delivery
- 3.We provide a large number of brand new in stock.
- 5.There are many products in stock.
6. We only provide the original new items, 100% make sure the best quality!

1 Year Warranty

Our Company

Wuhan Sean Automation Equipment Co.,Ltd established for over 6 years, believes in providing the best quality,we offer and deliver products worldwide.As a factory automation wholesale distributor,we provides quality new parts along with quality on everything we carry.

We offer a minimum one-year warranty on all products.satisfied for customers are to our purpose.we have been committed to providing quality parts and equipment at the right price and right time to every clients.Many parts are stocked and available with very short lead times to ensure yourparts are available when you need them.
