

PLC 1768-L43 MICROLOGIX COMMUNICATION MODULES

Basic Information

- Place of Origin:
- Brand Name: PLC
- Certification:
- Model Number:
- Minimum Order Quantity: 1PC
- Packaging Details: BRAND NEW WITH FACTORY PACKAGE

USA

СО

1768-L43

2-3 days

T/T

- Delivery Time:
- Payment Terms:
- Supply Ability: 100pcs per week

Product Specification

- PART NO.:
- Weight:
- 0.5KG

Negotiabled

- Actual PRICE:
- Condition:
- Application:
- Color:
- New Original With Sealed Oil And Gas Factory
- Normal

Our Product Introduction

Description

PLC 1768-L43 MICROLOGIX COMMUNICATION MODULES

Product details

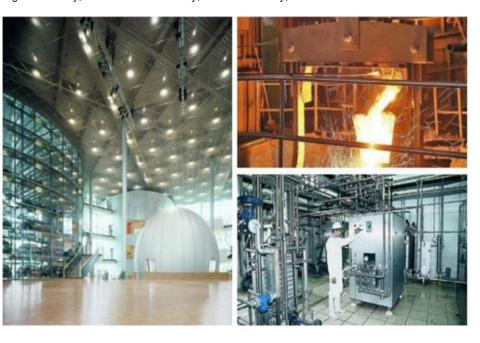

Model	1768-L43
Brand	PLC
Description	MicroLogix 1400 controller
Datasheet/Catalogue	PDF File
Weight	0.5KG
Condition	Normal

Product Description

The MicroLogix 1400 controller is designed to broaden application coverage through available embedded analog inputs, Ethernet communication, faster high-speed counter (HSC), and pulse train output (PTO) capabilities. MicroLogix 1400 controllers maintain the same critical features you have come to expect from the MicroLogix 1100 controller, and expands that capability with more I/O, faster HSC/PTO, and an additional serial port. MicroLogix 1400 controllers complement our low-end controllers for applications that require up to 256 digital I/O. Each MicroLogix 1400 controller includes 20 digital inputs and 12 digital outputs. In addition, several models include 4 embedded analog inputs and 2 embedded analog outputs. The controller can also expand its I/O capabilities by using the same modules as the MicroLogix 1200 controllers. Up to 7 of the 1762 I/O modules can be used with a single MicroLogix 1400 controller. Using the latest version of our world-class RSLogix 500 programming software, the MicroLogix 1400 controller can be programmed with an instruction set that is common with the MicroLogix 1000, MicroLogix 1200, and SLC 500 families of controllers. RSLogix 500 Starter, Standard, and Professional applications, as well as RSLogix Micro software, all support the MicroLogix 1400 controller, including its online editing capabilities. Each controller has 2 serial ports with DF1/DH485/Modbus RTU/DNP3/ASCII protocol support and a built-in Ethernet port, which supports EtherNet/IP, Modbus TCP/IP and DNP3 over IP. An embedded LCD screen lets you monitor controller and I/O status, as well as make changes to bit and integer data.

Application

1. Power industry, the elevator industry, parking, automobile, auto ancillary. 2.feed industry, aluminum smelting machines, refrigeration industry. 3.steel industry, combustion control systems, non-ferrous metal smelting. 4.glass industry, construction machinery, textile machinery, water treatment

Mainly Products

PLC module	Redundancy Module	
DCS module	Analog input module	
CPU module	Analog output module	
IO module	Digital input module	
DO module	Digital output module	

Al module	Relay Output Module	
DI module	Relay Input Module	
Power Module	Motion control module	
Ethernet module	Network communication module	

Best Services Assurance

- 1.High quality 2.Fast Delivery

- 3. We provide a large number of brand new in stock.5. There are many products in stock.6. We only provide the original new items, 100% make sure the best quality!

Our Company

Wuhan Sean Automation Equipment Co.,Ltd established for over 6 years, believes in providing the best quality,we offer and deliver products worldwide.As a factory automation wholesale distributor,we provides quality new parts along with quality on everything we carry.

We offer a minimum one-year warranty on all products.satisfied for customers are to our purpose.we have been committed to providing quality parts and equipment at the right price and right time to every clients.Many parts are stocked and available with very short lead times to ensure yourparts are available when you need them.
