Product Description

HONEYWELL 51403282-200 LCNP4 PC BOARD

Technical Application

The Honeywell Kits and Enhancements program (K&E) enables you to keep your process control systems current by providing update and migration packages for existing Honeywell installed equipment. The Honeywell K&E program is a cost-effective and low risk path forward to update older hardware and to migrate to current technology which maximizes the return on your automation control and information technology investment. These upgrades and migrations to current Honeywell platforms and technologies are available at specialized pricing which protects your initial investment in Honeywell systems.
