Product Description

FOXBORO P0917MF DCS FIELD TERMINAL ASSEMBLY MODULE

The EcoStruxure Foxboro DCS USB annunciator and annunciator/numeric keyboards provide output information through the use of annunciator lights and audible alarms, plus input information through key switches. Both keyboards are suitable for use with Foxboro DCS workstations or servers (which support their requirements). The keyboards can be free standing or workstation/panel mounted. The audio alarms feature multiple pitches which indicate audible differentiation of system alarms and process alarm priorities. An external audio output jack is available for an attachable, customer supplied, audio amplifier with speakers. The external speakers provide sufficient capacity to be heard if the keyboard is located in a noisy environment. The keyboards have a lamp test function (LED test), which simultaneously illuminates all the LEDs.

Technical Application

1. Power industry, the elevator industry, parking, automobile, auto ancillary.
2. feed industry, aluminum smelting machines, refrigeration industry.
3. steel industry, combustion control systems, non-ferrous metal smelting.
